

POOL SAFETY CHECKLIST

Your commitment to your kiddo's water safety goes far beyond swim lesson enrollment - help them be safer in and around pools with this checklist!

The pool has a well-kept 4-sided fence with a self-closing, self-latching and lockable gate that opens outward.

The pool has a non-mesh or netting cover without any tears, rips or functional issues.

The pool has alarms that work properly.

There is a first aid kit present.

There is an AED present.

The pool has easily accessible safety equipment (ring buoy, shepherd's hook, etc.).

There is a sign posted with emergency phone numbers and address listed.

The water is clear and the bottom can be seen easily.

There is an anti-entrapment drain cover.
