

QUESTIONS TO ASK

BEFORE YOU BOOK YOUR VACATION RENTAL/HOTEL

Planning your family vacation can be a big job, but we're here to make it easier (and safer!) for your family. We've pulled together a list of questions to ask before you book your next vacation rental or hotel stay:

What bodies of water are on-site AND nearby?

What barriers, covers and alarms are in place? Are they in proper working condition?

What are the water depths of the pool/spa?

Is an emergency plan available with details on the rental and the nearest hospital?

Are there any specific pool/spa rules to abide by during your stay?

Is there space to store toys away from the water?

Are life jackets available on-site?
