

THE ROLL OF THE WATER WATCHER

Constant supervision is the most effective way to prevent drowning. Designate a Water Watcher to always reference these rules and supervise children any time they have access to water, even when not swimming.

AS THE DESIGNATED WATER WATCHER, I AGREE TO...

- 1** Supervise all kids in and around the water.
- 2** Put my cell phone away & avoid any other distractions.
- 3** Find a replacement Water Watcher before leaving the area.

**A WATER WATCHER DOES NOT REPLACE THE
SUPERVISION OF A CERTIFIED LIFEGUARD.**
